Famine.—In 1899-1900 the rains failed and the District was severely affected by famine. The outturn of crops was 20 per cent. of the normal. Relief works were opened in September 1899 and continued till October 1902. The highest daily average number relieved on works was 192,909 in August, and, in receipt of gratuitous relief, 98,274. The death rate per mille was 128·37. The total number of deaths from all causes among persons on relief works was 21,568, of which 10,123 were attributed to dysentery and diarrhœa and 3,200 to cholera. The percentage proportion of the sexes and children among the relief workers in the District was 40 males, 43 females, and 17 children. The average wage per worker unit was Rs. 0-1-8. In 1900-01 the area affected was the same as in 1899-1900. The highest number in receipt of relief was 36,011 in July 1901, and 19,158 were gratuitously relieved. The death rate during the year was 88·43 per mille. In 1901-02 the area affected was the same as in the previous two years. The total daily average attendance on relief works, which was reduced to 3,218 in October 1901, rose to 136,820 in August 1902. The number in receipt of gratuitous relief was 42,846 in September 1902. The death rate during the year was 49·90. No further famine occurred up to the end of 1910-11. (For further details see Table No. XIII.)
